

Millie micro nano pico

by Tiziana Stoto

Book 2 in which a scarecrow gives Millie
a brilliant idea about magnets

● Getting up is so hard.

But I can't wait to see my friends the electrons.

● I'm ready. Let's go!

● Oh dear. Nobody here.
I hope Ella didn't forget about me.

● Here comes a wave. Purrrrr...

▼ Hi Millie.

● Hi Ella. I'm so happy to see you again.
Is Elvin coming?

Millie micro nano pico Book 2 is a humorous introduction to magnetism based on the orientation of electron spins. In this adventure, Millie wants to know what it is like to be an electron; she learns about magnetic fields, attractive and repulsive forces, and the difference between magnetic and non-magnetic materials.

Children love this book. Here are some of their comments:

I liked Book 2 a lot because it was cool to learn about magnetism. Josh, 10

I was more involved and used my brain a little more than with Book 1. Mia, 10

My favorite bit is when Millie said "ohh that's how my door works". Hannah, 9

I liked this book because there are facts but it's a story. Gilles, 11

These books will stimulate children's curiosity. Questions are more than welcome. Send Millie a message at millie.kolorato.com or on Facebook at www.facebook/milliemicronanopico/.
